### should we ban all gas-powered vehicles

I don't suppose it's a good idea to ban all gas vehicles entirely. because this would definitely lead to a backlash. Instead, we should do it step by step. For example, government could raise public environmental and encourage people to use greener form of transportation like walking or cycling, also we could limit the number of cars that are permitted to enter the city center. In this way, the environment could be better protected.

- *Describe an item of clothing that someone gave you*
- *you should say:*
  - *what the piece of clothing was*
  - *who gave it to you*
  - *when you got it*
- *and explain whether you liked or disliked this piece of clothing*

the piece of clothing i'm going to talk about is a hoodie of mine which is mainly blue and it has a pattern of many stick going through some hooks.

i often wear this hoodie, and ...

the last time i wore it was two days ago

and i wore it to the park near my home with my grandma

we took a walk in the park and my grandma kept giving me compliments on this hoodie.

the person gave me this clothing is my older sister, who has already been working for a year now, and with her salary, she buys me stuff from time to time.

i really like this hoodie because it keeps me warm all the time.

for instance, just about a week ago, i went to the great wall with a few of my closest friends and it was pretty cold that day,

minus 2 or 3 degrees Celsius.

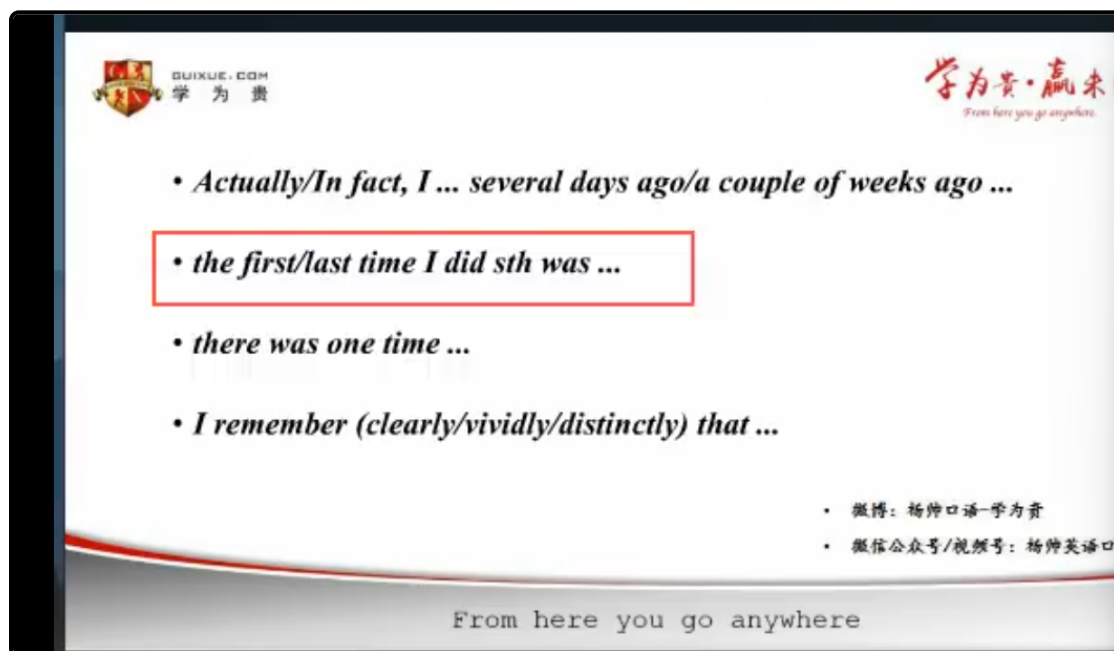

thankfully/fortunately, i was wearing this hoodie that day underneath a jacket, so i felt quite warm the entire time.
